1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Goonhavern Primary School is recognised as being an excellent school with a caring family ethos. Our staff set high standards and aim to ensure that all our young people achieve their best, realise their full potential and participate fully in the life of their school. Our goal is to achieve a happy, caring and close working environment with our families. We strive to achieve the very best so that your child has the skills and inspiration to be confident and believe in themselves. Education is a partnership between home and school and we put a great emphasis on our relationship with parents. Our belief is that children learn best when home and school work together for their benefit. Our dynamic and exciting curriculum creates an enjoyable education and learning environment. It provides opportunities to solve problems and process information. We believe and encourage children to take responsibility for their learning and be able to make decisions.

Goonhavern Primary School are a committed and enthusiastic staff team who want the best for our children by providing an innovative, high quality teaching which inspires a lifelong love of learning. We are excellent role models and we enable children to feel that they can achieve and feel positively about themselves. We believe our children can achieve anything and we treat all of them equally.

All classes are fully inclusive. Support for children is determined by individual need and circumstances. We have high expectations for all our children and we aim to fully extend their academic and social development. Throughout their time at our school children may receive varying levels of support according to their changing needs and circumstances. The levels of support and provision will vary across time for individual children in response to their individual needs and will follow the principles set out in Cornwall County Council's document 'Supporting Children and Young People with Special Educational Needs - The Graduated Response in Mainstream Schools.'

This plan will be made available online on the school website, and paper copies are available upon request. We are happy to support provision of this document in any other format or language as requested.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

The Cornwall Accessibility Strategy

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, the complaints procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including pupils, parents, staff and governors of the school.

2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if they have a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on their ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

An accessibility audit takes place in school to support the development of this plan.
